## Location, infrastructure and management (1/3)

Finca "La Noria" is a family farm located in Northwestern Spain, in the village of Buñuel, Navarra, in the heart of Ebro Valley (**Bank of Navarra-Spain**).

It has an extension of **100 hectares of irrigated land**, very fertile soil and high productivity, can rotate up to 3 or 4 crops in the same year.

Its location allows quick access to major roads and Iberian Peninsula communication lines, allowing to provide in just one day in the **Spanish and South European markets** and needing only two days to supply the rest of the **main European markets**.

It has an efficient **irrigation water management**, drop located, and management of excess water, keeping an eye on **environmental care** and **proper use of water resources** of the Earth.

## Location, infrastructure and management (/3)

Preparation of Orders is performed in a facility with **Clean Room Apparel with Health Registry** (No. 21.05918 NA) for safe food handling and **cold storage** (raw and finished products).

The Farm currently has a **covered area of 2,000 m<sup>2</sup> greenhouses**, tunnel type, which helps prevent the rapid spread of pests. The forecast is double the area covered in the coming months. Pollination in greenhouses is done naturally without introducing species for this purpose.

Organismo de Control BIO:  
**ES-ECO-025-NA**  
Nº de Productor BIO: **NA P0943**

In the production management, the Farm promotes the microfauna and flora **biodiversity**, in order to achieve the natural balance needed for growing of **Organics Certified**, without the use of pesticides, fertilizers or fungicides chemical sourced.

## Location, infrastructure and management (3/3)

Most of the natural fertilizers used are generated from their livestock (**manure**) and from the agricultural crop wastes and cleaning **compost**.

Production is spread throughout the year, alternating summer and winter crops. About 60 different crops are grown, highlighting **Tudela Artichokes, Broccoli, Cauliflower, Onions, Tomatos, Cucumbers, Courgettes, Peppers and Lettuce**.

We dispose a **permanent Tracking System** that allows us to certify the Food Track Security with number batch production. The management of production is monitored daily in a **field notebook** for each plot.

Certified Organic Production: "La Trailla"<sup>®</sup>.

Farm production is carried out with **Organic Agriculture criteria**, under permanent supervision of the Control Bureau (ES-ECO-025-NA) belonging to the **Organic Navarra Agriculture Board** ([www.cpaen.org](http://www.cpaen.org)). Our **Bio Number Producer** is NA P0943.

Nevertheless Organic Farming is more, it is a **way of life**, a way of understanding the nature and role of human beings in the preservation of the **environment**.

The production technique follows **Crop Association and Rotation**, and takes care of certain natural species (flora and fauna), seeking the necessary **Biodiversity** in order to achieve the natural ecosystem balance.
